City Tax Rate To "Hold The Line"

NO INCREASE FOR THE COMING YEAR IS NOW PLANNED BY COUNCIL

The present city tax rate of $1.296 per $100 valuation may not be increased this year, informed city hall sources indicated today.

Members of the city council will set the new tax levy at the regular council meeting next Monday evening.

Early in June when the new city budget was adopted, Mayor Melford D. Battye promised there would be no tax increases for the city this year despite the fact that the record $320,485 budget for this year was $11,975 more than the budget for last year.

However, county taxes, which are separate from city taxes, probably will be increased, County Controller Fred Beers said today in Redwood City after property assessments were raised from $4,677,860 to $4,702,545 in Daly City.

One reason that city taxes may not be increased is that there has been $893,785 worth of new construction in Daly City within the past year. This has added more property to the tax roll and the addition of this new revenue will offset the money used to pay for the salary boosts to most of the city employees and other items in the new budget.

For example, improvements and new construction in last year's tax roll were listed at $4,925,720. The new tax roll, which has just been completed by City Clerk B. C. Ross, lists new improvements at $5,369,140.

Veterans exemptions offset some of this increase. The new total is $566,265 as compared with last year's $353,960.

The city tax rate is figured from taxes on general property, public utilities and unsecured property.

A comparison of last year's tax roll with the new set of figures for this year shows:

Real estate — 1947, $2,891,990; 1946, $2,894,996.

Improvements—1947, $5,369,140; 1946, $4,925,720.

Secured personal property—1947, $113,620; 1946, $93,276.

When the exemptions are subtracted from the total of the above figures the total valuation for tax-

BUILDING PERMITS FOR 1947 EXPECTED TO TOP RECORD HIGH IN 1946

Five Room Homes At $4,000 - $6,000 Lead Permit List

New building construction in Daly City in 1947 may be even greater than during record-breaking 1946, Arthur J. Bodien, superintendent of public works, said today.

Last year's record was equal to more than 74 per cent of the total of all construction in Daly City from mid 1940 to the end of 1945—five and one half years.

There were 217 building permits issued last year with a value of $1,058,940.

But during the first seven months of this year — from January through July — 182 building permits were issued with a value of $889,445.

Bodien is optimistic regarding the possibilities of surpassing the 1946 record before the end of this year.

The Daly City permits issued during July covered 28 permits for new dwellings having a value of $90,300, seven permits for alterations having a value of $6,835 and three permits for commercial businesses having a value of $29,000. All together there were 38 permits issued last month having a value of $126,135.

During the seven months of this year there have been 14 commercial building permits issued having a value of $136,562. The largest item in this list is a $45,000 addition to the Bank of America.

Also included is a $25,000 caddy house on the Junipero Serra boulevard, a $25,000 dry cleaning establishment at 6215 Mission street and a $23,900 cleaning and dyeing plant at 210 Dixon court.

During this same January-July period there were 120 new dwelling permits issued having a value of $607,140.

The largest istem in this category is a $63,000 development on West Lake avenue. Included are seven two floor apartment houses each having four three room apartments.

Also included is a $50,000 development on Evergreen avenue where four two story five room apartment houses are being built.

A $10,000 two story apartment house is also being built at 299 Miriam street.

The largest items, however, are in the construction of new five room private homes. Prices of these new homes range anywhere from $4,000 to $10,000 with the average cost around $6,000.

During the past seven months there were 47 permits issued for the construction of new houses in the $5,000 class alone. Close following were 11 permits issued for homes costing $6,000.

There were 48 permits for alterations in the past seven months. The alterations total $35,755 and include everything from a new foundation, office space, underground storage and the additional bed room.

Not included in the number of building permits issued this year is the $200,000 three story steel and concrete Parish School of Our Lady of Perpetual Help on Wellington avenue.

Construction on the new building started last October and the school will be ready for occupancy at the beginning of the fall term.

The ground floor of the school has a large assembly room, cafeteria and kitchen. Four large rooms and a kindergarten are on the second floor along with the school office, teacher dining room and kitchen and lounge. The third floor has the clinic, music room and class rooms for the fifth to the eighth grades.

Records are also being made in new county building. During the month of July more than three and one quarter million dollars worth of building was approved for the unincorporated areas of the county.

The 353 building permits issued during the month include one permit for $900,000 issued to Western Crown Cork and Seal Corporation which is building a new plant on the Bayshore Highway just south of the San Francisco city limits.

S.F. Man To Appear In City Court---Now Out On $125 Bail

Edward L. Hallenbeck, 998 Silliman street, San Francisco, is scheduled to appear tomorrow before City Judge William J. Sweeney on a charge of driving while under the influence of liquor. He is now out on $125 bail.

According to the police report, Hallenbeck was driving his automobile in a very erratic manner north on Mission street on Saturday.

Police chased Hallenbeck from School street to Vista Grande avenue. When stopped by police, Hallenbeck was found to be very much under the influence of liquor, according to the police.

Joe Josephs, 559 Valencia street, San Francisco, was found drunk in a vacant lot between Wellington and Crocker avenue on Friday evening. Joseph was jailed on a charge of being drunk in a public place but later released on $10 bail. He is also scheduled to appear in court on Friday.

Carl McClung, 425 Duane street, Redwood City, is scheduled to appear in court tomorrow on a charge of violating C.O. 209. He was found drunk on Saturday morning lying on a shoulder of Junpiero Serra boulevard just north of the Pacific Coast Aggregates. His automobile was backed into a gutter some 500 feet north of where McClung lay, according to the police report. McClung is now out on $10 bail.

Also out on $10 bail on a charge of being drunk in a public place is George Chamberlain, 329 Peoria street. He was arrested on Saturday evening.

Community Chest Budget For 1948 Is Set At $200,000

The over-all Community Chest budget quota for San Mateo county for 1948 has been set at $200,000. This is an increase in quota over last year but officials of the Community Chest say the increase is based on the rise in population and prices and the expanded programs outlined by the agency.

The quota was approved at a special meeting of the executive committee of the Community Chest on recommendation of the budget and admission committee and the finance committee.

RICHARD HINES BITTEN BY DOG

Richard Hines, 40 Vista Grande avenue, was bitten by a dog while collecting for his paper route on Los Olivos avenue on Sunday afternoon. He was taken to Junipero Serra Hospital and treated.

William E. Jones Passes Away Saturday Evening

William Elmer Jones jr., a veteran newspaper man and public relations counselor, passed away on Saturday evening after a lingering illness at his residence at 23 Vine Terrace.

At the time of his death, Bill Jones, as he was known among his fellow workers, was on leave of absence from his duties as a reporter on the Daly City Record and an advertising salesman on the Excelsior News.

Mr. Jones was born 63 years ago in Denver, Colorado, where his parents were pioneers.

He began his newspaper career on the old Denver Post and he later became city editor of the Pueblo, Colorado, Chieftain; the Great Falls, Montana, Leader; and the Seattle Post-Intelligencer.

In the early 1920's Mr. Jones came to California and engaged in publicity work for several movie studios in Hollywood until 1933.

During the past 15 years he lived in San Francisco where he continued his newspaper and public relations work.

During the San Francisco World's Fair in 1939 and 1940 he was a member of the San Francisco Chronicle's Treasure Island staff.

He was a member of the Daly City - Colma Lions Club and the International Brotherhood of Iron Shipbuilders and Helpers of America, Local No. 9, AFL.

He joined the staff of the Daly City Record and Excelsior News in September 1946 and worked until early May of this year.

Before the entrance of the United States into World War II Mr. Jones did an outstanding job of publicity work in connection with the organization of the USO in San Francisco. He did the beginning publicity work for that organization and its success during the war was largely due to his publicity and organizing ability.

However, Mr. Jones thought that he could do more for the war effort by getting into active war production, so he became a structural steel worker in one of the shipyards in Marin county and remained in this line of work throughout the war years.

Funeral services were held on Tuesday at the Golden Gate Undertaking Company chapel, 1550 California street. Interment was in Cypress Lawn Cemetery.

Mr. Jones is survived by his widow, Ynez, and a son, Michael William Jones, 13.

IDENTIFY BODY AS THAT OF HARRY NICHOLS

The body which was washed ashore at Sharp Park on July 18 has been tentatively identified as Harry W. Nichols, a former civilian employee of Hamilton Field.

The body has been at the W. C. Lasswell Mortuary and Miss Shirley Lowder of San Raphael says she thinks it is that of Nichols, who once lived in a rooming house where Miss Lowder lives.

Positive identification is awaiting the return of fingerprints from Washington for a check with Nichols' prints on file at the Hamilton Field.

Little has been learned of Nichols' activities between the time he left the employ of Hamilton Field on April 5 and the discovery of the body.

It is known that early in April Nichols drew his entire savings from a bank.

There was no money in the clothes when the body was found. There were no signs of foul play, according to the sheriff's office.

Nichols was about 65 years old and five feet eight inches tall.

$76 TAKEN FROM S.F. MAN EARLY SAT. A.M.

Anthony Farrell, 1970 23rd avenue, San Francisco, was robbed of $76 by two unknown men on School street near Junipero Serra boulevard early Saturday morning, according to the police.

Farrell told police that he was driving his car west on School street across the railroad tracks when he was stopped by the two men.

The men, according to Farrell, forced him out of his car and walked him to a point south on Railroad avenue where one man, who assimilated having a gun in his coat pocket, forced Farrell to hand over his wallet.

The man took the money from the wallet and then gave the wallet back to Farrell, according to the police report.

The two unknown men are said to have jumped into their car which was parked on Railroad avenue and drove south.

Daly City police say Farrell gave them a partial license number of the getaway car, believed to be a late model Packard. A check of the information gave no leads, the police indicate.

Driving 75 M.P.H. In Fog Brings $25 Fine In Traffic Court

Daniel O'Connell jr. was fined $25 by City Judge William J. Sweeney in traffic court on Friday. O'Connell is charged with driving 75 miles an hour in the fog on Junipero Serra boulevard.

Ordell Cohen was fined $10 for speeding while Martin Carey and Ralph Taylor each received a $7.50 fine. Fined $5 were Andrew H. Johnson, Emmet O'Hare, Herman Scheppelman and George Vallerga.

Gustave Anderson was fined $2.50 for parking in a loading zone.

Fined $2.50 for violating the hill hold provisions were Geraldine Cano, Ray Chelone, Robert Ford, Ambrose Fox, Louis Linas jr., Edward Taylor, J. Wirdzek, Harry Lynehan, and Kenneth Taylor.

Thomas Vallerza was fined $1.50 for overnight parking.

Wilbert Baxter, Berkeley Baker, and Harry Steinbeck were each fined $2 for not stopping at an arterial.

Hake Garrison was fined $2.50 for parking in a red zone.

John Zgroggen, of Hillside boulevard, Colma, was fined $2.50 for parking in a prohibited zone and an additional $7.50 for not having lights or a muffler.

Leo Willrader, was fined $2.50 for not wearing glasses.

Oliver Mallen and Robert Martinovich were each fined $2.50 for parking in a prohibited zone.

Fined $2.50 for passing through a signal were Winifred Schermerhorn, Fred Underhill, Roy Kring, Harry Lapkin, Samuel Welkins, and Melba Warren.

Elbi Lanza was fined $2.50 for not stopping while a pedestrian was in the crosswalk.

Trips With Dishes— Taken To Hospital

William Kenny, 48 6th street, San Francisco, was badly cut on the hands when he tripped with an armful of dishes at Club Casino, 6192 Mission street, where he is employed on Sunday afternoon.

Kenny was taken to Junipero Serra Hospital. The nurse was unable to contact either Dr. Drees or Dr. Smith so Kenny was taken to the Alemany Hospital.

Proud Father Forgets Cigars!

Mr. and Mrs. Tom Stanghellini of 128 Moltke street, are the proud parents of a son, named Thomas John jr., born on Tuesday, July 29, at 10:35 a. m. at Mary's Help hospital. Thomas jr. has a sister, Carol Ann, who is 5½ years old.

Paternal grandparents are Mr. and Mrs. P. Stanghellini of Daly City. Maternal grandparents are Mr. and Mrs. A. Galli, of Gilroy.

Lions Club Hear Dr. Edwin C. Brown Of S.F. Schools

Dr. Edwin C. Brown, director of personnel for the San Francisco Public Schools, was the principal speaker at the Daly City - Colma Lions Club meeting yesterday at Estradas. Dr. Brown was introduced by Stanford Hannah.

Next week Joseph Donowitz, of the San Mateo County Boys Boosters, will speak on the objectives of the club. He will be introduced by Joe Sarto.

V-J DAY

Two years ago on that unforgettable August 14th we all waited for the fateful hour of four o'clock. It seemed a certainty that the Japs had thrown in the sponge officially. But until four when the President's press conference was to be held we couldn't be positive.

Came the hour—and peace! Well, it wasn't unexpected but from that moment on for the next three or four days the whole country went on a sort of emotional binge. All the pent up tension of the war years suddenly found release. People shouted and cried and prayed and marched in the streets and threw confetti—and a lot of other things—and acted zany in general.

Finally, the spree was over and we all settled down to enjoy the newly-won peace. But peace didn't turn out to be quite what we had expected. Probably the reason was that world conditions were not peaceful. Fighting broke out in Indonesia. The Chinese kept on battling among themselves. There was shooting in the Philippines. Palestine and India continued to seeth. Russia's conduct toward her allies was not friendly.

Even at home we had a first class brannigan between management and labor that dealt the nation a blow from which it has not yet recovered.

To sum it all up, we found out after August 14, 1945 what had been discovered after November 11, 1918, namely, that tthe mere declaration of peace doesn't automatically bring peace. We've learned that the fight for peace is not over—it has just begun. And we've learned that this fight is a harder one, in the final analysis, than any military operation.

But we must win the peace. We must win it through a courageous stand for the right as we see it both at home and abroad. We must win it through wise, not impulsive, action. We must win it through faith not merely in material might but in that Power which inspired the founding of our country and has preserved it through the years.

DUTCH "IN DUTCH"

The Netherlands Government has not contributed to more stable world conditions by its "police action" in the East Indies. Nor has it inspired greater confidence on the part of Asiatic peoples in the democracies.

It is recognized that the Indonesians committed numerous violations of the pact under which their government is recognized by the Dutch and which is to give them their independence on January 1, 1949. But the Dutch have obviously erred in not seeking first to settle these matters through mediation or arbitration by a neutral power as provided in the pact.

As it is, the Dutch may have bitten off more trouble than they are able to chew. The military action has reopened the wounds of the Indonesian war. Economic recoverey in that area may receive a severe setback through the "scortched earth" policy of the natives. This will affect the economic recovery of the Netherlands, and, in some degree, the world.

The Dutch will have great difficulty justifying their position before the United Nations and in the eyes of the world, if indeed, they are able to justify it at all. Regardless of how successful they may be in subduing the natives through armed action they stand to lose much more in world respect than they could hope to gain by force.

It is to be earnestly hoped that the Dutch, who are reputed for their good sense, will see the folly of their present policy and change it before extensive and irreparable economic and political damage has been done both to themselves and the world in general.

SURPRISE?

The statement by Victor A. Kravchenko, former Russian official who renounced Communism, that all Soviet representatives in this country are spies should not have occasioned surprise. After all, the Kremlin looks upon all non-Communist nations as enemies. It carries on an unceasing "war" against them—operating through the Communist groups in each country. All of these groups take their instructions from Moscow. The case of the Russian officials who obtained secret information not long ago in Canada was enough in itself to show what some of the assignments of these officials are. But the espionage by the Russians is not unusual in international affairs. Other countries have done it in the past, and are probably doing it now. Even our own government plans to keep a close eye on what other countries, especially possible aggressors, are doing. And that can't be determined entirely from the outside in—or trying to look in. As long as nations view each other with suspicion there will be spies.

Escaped Convict Captured Here To Face Fed. Charges

William Edward Ward, 24 year old escaped convict of Daly City, faces a possible 15 year federal prison sentence for transporting stolen automobiles across state lines, according to Sergeant Roy Beecher of the local police department.

Ward, who escaped from two state penitentiaries and eluded police of several cities, was captured by Daly City police last Wednesday evening after they patiently stalked him to his father's home at 121 Los Banos avenue.

Ward is now being held in the county jail at Redwood City.

Under questioning by FBI special investigators and county police officers, Ward confessed to stealing three cars and driving them across state boundaries, since his escape July 9 from the county jail in Belleville, Kansas.

Ward also admitted burglarizing the Maxwell Cleaners, 7348 Mission street, on July 17. Less than 24 hours later police had solved this crime and had recovered the loot.

Stolen were three pair of slacks, two suits, four sport shirts, one sweater and one lady's coat.

W. M. McCabe, an 18 year old youth of Des Moines, Iowa, a companion of Ward, was picked up by San Francisco police while burglarizing a gasoline station.

The car used in this burglary had been stolen in Colorado and in the back seat was the clothing stolen from the Maxwell Cleaners.

Ward was with McCabe at the time of the gas station burglary but eluded police capture.

Ward also admitted burglarizing "five or six restaurants and filling stations" on his way from Kansas to San Francisco.

The cars were stolen from Kansas and Colorado.

Daly City police captured Ward last Wednesday evening. Sergeant Roland Petrocchi saw Ward along the railroads in the south part of town and he radioed police officers Edward Beecher and Arthur Linhares for assistance in the capture.

Police Chief Sunderland, who was also on the scene, said he hesitated to "make the pinch" near the railroad tracks because high grass and buildings offered too many avenues of escape.

Ward was thus followed to the home of his father at 121 Los Banos avenue and a watch was set on the front and rear of the house.

After the elder Ward, a streetcar motorman, came home the four officers closed in and arrested the youthful convict in the upstairs hallway. He offered no resistance.

At the time of his capture Ward was unarmed and in his pockets were $1.68 in cash, two cigars, two pieces of candy, a pack of gum and a good luck charm.

Besides facing the 15 years sentence in federal prison, Ward also will serve double time at both the New Mexico and Oklahoma state penitentiaries from which he escaped.

Degliantonis Return From Trip In The Northwest

This week Mr. and Mrs. Bill Degliantoni came home after a ten day 3500 mile trip with nothing but praise for the beauty and majesty of the Pacific Northwest.

They went all the way by auto and traveled through Yreka, the Cascades and the Columbia River and then on to Seattle, Puget Sound and Victoria.

But what impressed Mr. Degliantoni, of the American Roof Maintenance Company, 6281 Mission street, the most was the Grand Coulee which he calls "one of the seven wonders of the world."

He described the time he was crossing the top of the dam.

"Way down below was the water. And it is a drop. Just think of it—the dam is 4300 feet long at the crest. The height above bedrock is 550 feet and the drop of water is twice that of Niagara Falls.

"Then the artificial lake behind us. It is a storage reservoir and is known as Roosevelt Lake. That lake is 151 miles long and holds 436 billion cubic feet of water. No wonder it is tremendous and was the highlight of our trip.

"And if you want some more staggering figures, just look at this. Grand Coulee has a capacity of 648,000 kilowatts which is more than that of Boulder Dam and almost as much as all of the TVA.

"But enough for that. Another thing we won't forget is the ferry boat which took us over to Victoria, which is one of the most beautiful cities I have ever seen. This streamlined ferry boat was just three weeks old and held 100 cars. I just wonder what it would look like hauling traffic from Oakland to the Ferry Building?"

Retail Sales In County For '46 Hit Record High

San Mateo County residents are buying more food, drugs, clothes and countless other items.

The retail establishments in the county enjoyed their greatest dollar volume of sales in history last year when $132,117,000 was rung up on cash registers from Daly City to Menlo Park. This comes from the research department of the California State Chamber of Commerce.

The county's 1946 retail volume represents a gain of more than 42 per cent over the 1945 total of $92,897,000, according to the chamber.

The total retail sales for the entire state were 30.7 per cent over the 1945 level. Sales last year were $8,984,075,000 in the State.

The largest retail trade volume in San Mateo county was enjoyed by the food stores which had a $45,859,000 volume. Heary residential construction is reflected in the $11,483,000 expended for building materials, hardware and farm implements.

Dollar volume of retail sales in some other store classifications here last year include: general merchandise, $9,523,000; apparel, $7,012,000; household furniture, $5,102,000; drug stores, $3,827,000.

County Blood Bank Is Recognized By Outside Sources

Santa Barbara and San Diego along with Dallas, Texas, have joined the growing list of cities which recognize the San Mateo County Blood Bank in San Mateo as one of the foremost institutions of its kind in the country.

During the past few weeks representatives of San Diego, Santa Barbara and Dallas have requested information as to the layout, equipment, methods of obtaining donors, and facts concerning whole blood and plasma distribution.

San Diego already has a building but says that before establishing a blood bank wanted complete data regarding equipment and operating methods.

Gertrude Gehringer And Sidney Bliss Are Married In S.F.

On Monday evening, July 28, at 5 p. m. Mrs. Gertrude Gehringer of Gehringer's Beauty Shop, 6396 Mission street, became the wife of Sidney Bliss of San Francisco. Both are composers.

The couple, married in City hall, San Francisco, will make their home in Daly City.

Enlistments Open In Peninsula's 681st Battalion

Membership in the 681st Anti-aircraft Artillery Battalion — the Peninsula's own — is still open to men between the ages of 17 and 35 Major Malcolm A. Ross, commander, said today.

Pay ranges from $2.50 to $5.50 for each two hour drill period. Uniforms and equipment are furnished by the federal government. Many present members also are taking advantage of the opportunity to attend regular army service schools at full pay and allowances.

The 681st recruiting office is open daily from 9 to 5 p. m. at room 7, 215 B street, in Burlingame. The office is also open on Wednesday evenings from 7 to 10:30 p. m.

The battalion recently returned from a seven day school at Fort Ord where members participated in actual firing of automatic weapons under simulated battle conditions.

A. Q. McKinney Passes Away

A. Q. McKinney, 90, 201 Vista Grande avenue, passed away at his home on July 30 after a long illness. The body was returned to Indiana following funeral services on Friday at the W. C. Lasswell & Co. mortuary.

Mr. McKinney, a Daly City resident for 15 years, was a grocery store proprietor.

He was a widower and is survived by three daughters, Mrs. June Fletcher, Mrs. Rue Biggs, and Mrs. Mae Baugher, of Matthews, Indiana, and seven grandchildren.

Mr. McKinney was born in Deer Creek, Indiana, in 1856.

Homest'd Openings At Tule Lake Are Now In Prospect

As part of the Bureau of Reclamation's program of opening 20,000 acres of land in the western states to World War II veteran settlers during the second half of 1947, some 3700 acres of rich Tule Lake bottom lands, enough to provide 46 farms, will be opened to homestead entry on or about October 1, Regional Director Richard L. Boke announced at Sacramento today. The lands are located in the Coppeck Bay area of Tule Lake, in northern California, near the 7500-acre unit where 86 veterans who won farms in a drawing last December are now growing their first bumper crops of barley, seed clover, alfalfa and potatoes.

Official announcement of the opening will be made about October 1 and receipt of applications will close 90 days thereafter. While anyone may apply, World War II veterans have preference until the end of this 90-day period. Experience in the last opening, where 1305 World War II veterans were found qualified to become homesteaders, indicates that this preference period means in a practical sense that only World War II veterans need apply, Boke added.

Veterans wishing to make applications for the farm units available should request application blanks from the Bureau of Reclamation, Old Post Office Building, Sacramento, California, or the Bureau of Reclamation, Klamath Falls, Oregon. Application forms will be sent them shortly after October 1, Boke said. He stressed that veterans who have requested homestead information since the close of filing for the 1946 Tule Lake opening (September 15, 1946), or veterans on older mailing lists who have returned cards sent out by the Bureau signifying their interest in future openings, should not write in again, as they are already on a mailing list which will receive forms as soon as they are ready.

The Tule Lake opening, Boke said, is one of five now going on or soon to start. In central Wyoming, 67 units totaling 6850 acres on the Riverton Project were opened July 10, and applications for them will be received until 2 p. m., October 8. On July 24, 3215 acres, comprising 32 units of the Heart Mountain Division of the Shoshone Project in northwestern Wyoming, were opened; applications for this project will be received until 2 p. m., October 22.

Soon to be opened are 4935 acres, 54 units, on the Yuma Mesa Division of the Gila Project and 1439 acres, 28 units, of the Yuma Project—both in southwestern Arizona. Application forms for the Wyoming Projects may be secured from Bureau of Reclamation, Billings, Montana; for the Arizona Projects, from Bureau of Reclamation, Boulder City, Nevada.

Elman Rose Tells Results Of Social Week Program

Some of the results of Social Week, July 21-26, have been announced by Elman Rose, city recreation director.

Highlights of the week were a city wide playday program for boys and girls at the high school field with all playgrounds participating, a trip to the St. Francis Theater to see "Welcome Stranger, and two basketball games.

In the game on Tuesday Jefferson Elementary School playground defeated Marchbank 50-46. Clackett, of Jefferson, was high scorer with 32 points. Greenwald made 18 points for Marchbank.

In the other game on Friday Jefferson High defeated Marchbank 39-27. Baer from Jefferson was the outstanding player while Gallagher starred for Marchbank.

The city-wide playday at Jefferson High School on Thursday included the following activities:

Boys' and girls' 8 years and under—black Tom, London bridge, farmer in the dell, drop the handkerchief, three deep, squirrel and trees, cat and rat, dodge ball, poison, lemonade, rin-tin-tin, crows and cranes.

Boys and girls 9 - 11 years — dodgeball, bronco baseball, relays, competition held with boys vs. girls. The girls won most of the contests.

Girls 12 years and over—volleyball, softball and relays.

Boys 12 years and over—softball, basketball, touch football.

A picnic was held at Marchbank Park at noon after the morning events. At the picnic 400 pounds of watermelon was given free to those attending.

Also enjoyed were weiners and soft drinks.

The outstanding athletes of the week at Marchbank were Ida Pera and John Morrow.

Tournament winners at Lincoln Playground were: Checkers — (1) Leonard Gonterman, (2) Dick Hennig, (3) Bill Lyman; free throw—(1) Frank Douglas, (2) Leonard Gonterman, (3) Don Hennig; paddle handball—(1) Leonard Gonterman, (2) Dick Hennig, (3) Bill Lyman.

Tournament winners at Crocker playground were: paddle handball—girls (1) Carole Clarke, (2) Merrilee Faulk, (3) Barbara Anderson; boys (1) Leo Bricker, (2) Dick Hansen, (3) Ronald Anderson.

Off The Blotter - - -

J. C. Leach, 371 Hillcrest boulevard, reported to Sgt. Petrocchi of the police department that his 1941 Plymouth sedan was hit on the left rear fender by a hit and run driver on Friday evening.

Mrs. Wanda Wishard, 445 Santa Barbara avenue, turned her ankle in the street car tracks while crossing Mission street at Hillcrest drive on Saturday morning.

Mrs. Wishard was taken to Junipero Serra Hospital by Officer Walsh in the police car and returned home afer being treated.

Nine year old Albert Lagomarsino, 7144 Mission street, stepped on a rusty nail on Wednesday and was taken to the Junipero Serra Hospital for treatment.

Six year old Roy G. Martin, 379 Irvington street, ran into the rear of a truck while riding his coaster wagon down Evergreen avenue toward Mission street on Monday evening. He was taken to Junipero Serra Hospital for treatment of a deep head cut.

A 16 year old Daly City youth was picked up by San Francisco police on Monday morning for stripping an automobile. Also picked up were two San Francisco youths, one 15 and the other 16. It was the first offence for the Daly City boy.

D. G. Stokes, 7301 Mission street, was bitten on his left hand by a cat on Monday evening. Stokes was taken to the Junipero Serra Hospital for treatment by Dr. Drees.

Grass Fires

Two grass fires were reported this week in Daly City.

The first one was on Sunday evening near Bellevue and Templeton avenues and the second fire was on Monday evening in the Crocker Hills.

Fire companies 1, 2 and 4 responded to both fires.

Pet Show, Eating Contest Prove Big Events For Kids

Pepsi the rabbit, Dippy the duck and Tommy the pigeon and many other pets put in their appearance at the high school football field last Thursday. The occasion was the first annual pet show sponsored by the Daly City recreation department.

Blondie, a dog owned by Craig Ealer, walked off with three first place awards, while Bert, another dog, owned by Roberta Baldetti, followed closely with three firsts and a third place.

Honors in the cat category were close with Boots, Shorty, Tiger and Willie finishing very close in the total scoring.

Ping and Pong and David Maxwell's turtles went away with two first places. Tom and Jerry and Floyce Morrow's turtles were also there to give some competition. Tom and Jerry were awarded the prizes as the prettiest turtles.

Also included in the program of the day were the eating contests. John Madden won the bubble gum contest with a bubble about three times the size of his head. Ida Pera did the best for the girls but was still quite outclassed by Madden's super bubble. David Raspussen and Lois Pera finished in second place in each division.

Watermelon disappeared fast when the signal was given in the watermelon eating contest. Raymond Rosa proved he could put watermelon away faster than any boy present. Dwane Hale came out second best. In the girls' competition, Diane Hale proved best but was closely followed by Betty Marsh and Sandra Faulk.

In the cracker eating contest, Karl Firgo and Sandra Faulk were able to produce the first whistles in their respective competitions.

Strawberry cream pie was the order of the day in the pie eating contest. Joanne Belair, in the girls contest, finished several swallows ahead of the field. Bill Gensel and Leonard Gouterman finished first in the little boys and big boys competition respectively. None of the contestants finished looking the same as when he started.

Other activities included in the program were the following: tug of war, sack race relay, hand wrestle, Indian wrestle, arm lock wrestle, rooster fight, crab fight, back-to-back push, round the bases, snake walk relay, kangaroo relay, goat butting relay, and walking chair relay.

More Fines Are Assessed At D. C. Traffic Court

W. J. Housel, 35 Rolph street, San Francisco, was fined $100 for being drunk in an about an auto on Mission street on July 27 by City Judge William J. Sweeney in traffic court on Friday.

William Gross, 269 Hillcrest drive, was given a 90 day suspended jail sentence and placed on probation for six months for being drunk in a public place on July 31.

John Terramorsi, 27 San Joaquin avenue, was placed on probation for one year and given a 90 day suspended jail sentence on the same charge.

Francis S. Woods, 308 Ellington avenue, San Francisco, pleaded guilty to disturbing the peace on Mission street on July 13 and was fined $25. According to the police report, Woods bumped a car driven by Michael L. Ochoa, 806 Baden avenue, San Francisco, when he became angry after Ochoa blew his horn. The charge against Ochoa was dismissed.

Richard Callahan, 2310 Broderick street, forfeited his $25 bail because he did not appear in court on Friday. He was charged with disturbing the peace and being drunk in a public place.

Immigrants Try To Meet Middle-Class Standards

American middle-class standards are those to which most immigrants try to conform, according to Martin Loeb, assistant professor of social welfare at the University of California.

"Our middle-class culture is the core to which foreigners acculturate," says Prof. Loeb. "In this process it is shown that the culture of northwestern Europe is most similar to ours, and that of southeastern Europe the next most similar. All others are basically dissimilar."

These findings are from a University study of problems in changing from a foreign to American culture. Another objective of the continuing research is to determine the rate of change and the total time necessary for different foreign cultures to be absorbed into the American pattern.

To learn this, Prof. Loeb explains, schedule-interviews are being used which check on changes in such things as food habits, religion, accent, appearance, recreation preferences, family structure and sex attitudes. Spaced interviews provide progress reports toward the "criterion behavior" for American cultural standards.

SUMMONS

No. 43434

IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA IN AND FOR THE COUNTY OF SAN MATEO

ARTHUR A. NEWHOUSE, Plaintiff, v. ALL PERSONS claiming any interest in, or lien upon, the real property herein described or any part thereof, Defendants.

THE PEOPLE OF THE STATE OF CALIFORNIA TO ALL PERSONS CLAIMING ANY INTEREST IN OR LIEN UPON THE REAL PROPERTY HEREIN DESCRIBED OR ANY PART THEREOF, DEFENDANTS, GREETING:

YOU are hereby required to appear and answer the complaint of ARTHUR A. NEWHOUSE, plaintiff, filed with the clerk of the above entitled court and county, within three months after the first publication of this summons, and to set forth what interest or lien, if any, you have in or upon that certain real property or any part thereof, situate in the County of San Mateo, State of California, particularly described as follows:

Lots 47 and 48 in Block 3, as designated on the map entitled "NORTH MILLBRAE SUBDIVISION NO. 1, SAN MATEO CO. CAL." which map was filed in the Office of the Recorder of the County of San Mateo, State of California, on December 2, 1907, in Book 5 of Maps at page 49.

AND you are hereby notified that, unless you so appear and answer, the plaintiff will apply to the court for the relief demanded in the complaint, to wit: a decree and judgment establishing that the plaintiff, ARTHUR A. NEWHOUSE, is the owner of an estate of inheritance, viz, the fee absolute title of the property described in the complaint and hereinbefore described, of the whole and each and every part thereof, against all of the world, and that there exists no adverse claims of any character whatsoever to the aforesaid title of the said plaintiff, and for such other relief as may be prayed for or authorized by the law and statute in such instances made and provided.

WITNESS my hand and seal of said court, this 12th day of June, 1947.

Notice of Local Improvement

NOTICE IS HEREBY GIVEN that on the twenty-eighth day of July, 1947, the City Council of the City of Daly City, State of California, did adopt a Resolution of Intention, wherein said Council did declare that the public interest and convenience require, and that it is the intention of said Council to order the following work to be done and improvements to be made to-wit:

That Gambetta Street from Hillside Boulevard to Wyandotte Avenue, including the full intersection of Gambetta Street and Wyandotte Avenue; Thiers Street from Hillside Boulevard to Wyandotte Avenue, including the full intersection of Thiers Street and Wyandotte Avenue; Bismark Street from Hillside Boulevard to Abbott Avenue, including the full intersection of Bismark Street and Abbott Avenue; Abbott Avenue from Gambetta Street to Bismark Street, including the intersection with Gambetta Street and with Thiers Street; and Wyandotte Avenue from Gambetta Street to Thiers Street be improved by grading and by constructing sanitary sewers, sewer laterals and appurtenances, Portland cement concrete curbs, gutters and sidewalks and armor coat pavement wearing surface on crusher run rock base.

AND WHEREAS, the said contemplated improvements in the opinion of said Council are of more than local or ordinary public benefit, and said Council does hereby make the costs and expenses thereof and the expenses incidental thereto chargeable upon an assessment district, which district said Council declares to be the district benefited by said improvements and which said assessment district is generally described as follows:

All of Block 6, Lot 1 and Lots 18 to 36 inclusive in Block 7 and Lot 1 and Lots 18 to 36 inclusive in Block 10, Hillside Manor; Lots 1 to 4 inclusive in Block 5, Lots 1 to 5 inclusive in Block 11 and Lot 1 and Lot 5 except the Easterly 75 feet of the Southerly 40 feet of Lot 5 in Block 23, Abbey Homestead Association.

NOTICE IS HEREBY GIVEN that serial bonds which represent unpaid assessments and bear interest at a rate not to exceed six (6%) per cent per annum, will be issued hereunder in the manner provided by the Improvement Bond Act of 1915, the last installment of which bonds shall mature nine (9) years from the second day of July next succeeding ten months from their date.

Except as herein otherwise provided for the issuance of bonds, all of the above work shall be done pursuant to the provisions of the Municipal Improvement Act of 1913 (Statutes 1913, p. 421, as amended).

NOTICE IS HEREBY GIVEN that the City Engineer of said City, pursuant to said Act and said Resolution of Intention, did, on the twenty-eighth day of July, 1947, file with the City Clerk of said City his report in writing on said improvements, consisting of plans and specifications of the proposed improvement, an estimate of the cost of said improvement and the incidental expenses in connection therewith, a diagram showing the assessment district, and a proposed assessment of the total amount of the cost and expenses of the proposed improvement upon the several subdivisions of land in said district, and that said Council did on said date consider and examine said report, and by Resolution No. 983 preliminarily approved and confirmed it as filed without modification, and ordered that said report stand as the report for the purpose of all subsequent proceedings had pursuant to said Resolution of Intention.

NOTICE IS HEREBY GIVEN that the City Engineer of said City, pursuant to said Act and said Resolution of Intention, did, on the twenty-eighth day of July, 1947, file with the City Clerk of said City his report in writing on said improvements, consisting of plans and specifications of the proposed improvement, an estimate of the cost of said improvement and the incidental expenses in connection therewith, a diagram showing the assessment district, and a proposed assessment of the total amount of the cost and expenses of the proposed improvement upon the several subdivisions of land in said district, and that said Council did on said date consider and examine said report, and by Resolution No. 977 preliminarily approved and confirmed it as filed without modification, and ordered that said report stand as the report for the purpose of all subsequent proceedings had pursuant to said Resolution of Intention.

NOTICE IS HEREBY GIVEN that Monday, the 8th day of September, 1947, at the hour of 8:00 o'clock P.M., at the regular meeting place of the City Council in the City Hall in the City of Daly City, is the time and place appointed and fixed by said Council for hearing of protests in relation to said proposed improvement, and any person interested, objecting to said proposed improvement or to any portion thereof, may file a written protest with the City Clerk of said City at or before the time set for the hearing referred to herein.

For further particulars and more detailed information, reference is hereby made to said Resolution of Intention and said report of the City Engineer, on file in the office of the City Clerk in the City Hall, Daly City, California.

Dated: July 28, 1947.

Notice of Local Improvement

NOTICE IS HEREBY GIVEN that on the twenty-eighth day of July, 1947, the City Council of the City of Daly City, State of California, did adopt a Resolution of Intention, wherein said Council did declare that the public interest and convenience require, and that it is the intention of said Council to order the following work to be done and improvements to be made to-wit:

That Woodrow Street from Citrus Street to the Southerly termination of Woodrow Street at the Northerly line of the lands of the Jefferson High School, including the intersection of Woodrow Street and Citrus Street, be improved by grading and by constructing sanitary sewer laterals to unimproved lots, Portland cement concrete curbs, gutters and sidewalks and 4" compacted thickness asphaltic concrete pavement.

AND WHEREAS, the said contemplated improvements in the opinion of said Council are of more than local or ordinary public benefit, and said Council does hereby make the costs and expenses thereof and the expenses incidental thereto chargeable upon an assessment district, which district said Council declares to be the district benefited by said improvements and which said assessment district is generally described as follows:

Lots 9, 10, 11, 12, 13, 14, 15, 16 and the Westerly 5 feet of Lot 17 in Block 3 and Lots 1, 2, 3, 4, 5, 6, 7 and 8 in Block 4 as shown on "Map of Metropolis Homestead Tract", recorded in Book 9 of Maps at Page 15, San Mateo County Records.

NOTICE IS HEREBY GIVEN that serial bonds which represent unpaid assessments and bear interest at a rate not to exceed six (6%) per cent per annum, will be issued hereunder in the manner provided by the Improvement Bond Act of 1915, the last installment of which bonds shall mature nine (9) years from the second day of July next succeeding ten months from their date.

Except as herein otherwise provided for the issuance of bonds, all of the above work shall be done pursuant to the provisions of the Municipal Improvement Act of 1913 (Statutes 1913, p. 421, as amended).

NOTICE IS HEREBY GIVEN that the City Engineer of said City, pursuant to said Act and said Resolution of Intention, did, on the twenty-eighth day of July, 1947, file with the City Clerk of said City his report in writing on said improvements, consisting of plans and specifications of the proposed improvement, an estimate of the cost of said improvement and the incidental expenses in connection therewith, a diagram showing the assessment district, and a proposed assessment of the total amount of the cost and expenses of the proposed improvement upon the several subdivisions of land in said district, and that said Council did on said date consider and examine said report, and by Resolution No. 977 preliminarily approved and confirmed it as filed without modification, and ordered that said report stand as the report for the purpose of all subsequent proceedings had pursuant to said Resolution of Intention.

NOTICE IS HEREBY GIVEN that Monday, the 8th day of September, 1947, at the hour of 8:00 o'clock P.M., at the regular meeting place of the City Council in the City Hall in the City of Daly City, is the time and place appointed and fixed by said Council for hearing of protests in relation to said proposed improvement, and any person interested, objecting to said proposed improvement or to any portion thereof, may file a written protest with the City Clerk of said City at or before the time set for the hearing referred to herein.

For further particulars and more detailed information, reference is hereby made to said Resolution of Intention and said report of the City Engineer, on file in the office of the City Clerk in the City Hall, Daly City, California.

Dated: July 28, 1947.

Holy Angels Team Defeats St. Mary's By 11 to 3 Score

The Holy Angels Pygmy team of Colma defeated the St. Mary's Boys Camp 11-3 last Saturday.

The game was well played throughout for both teams but the Pygmy team capitalized more on mistakes.

While the wildness of St. Mary's pitcher, Smith, contributed largely to the Pygmy victory, the main factor was the ability of the Holy Angels sluggers to drive home the runners with timely base-hitting.

Fausty Quetivis, the Holy Angels star portsider, struck out 16 men and allowed only three hits, all of the scratch variety. He also collected two timely base hits.

Hitting honors of the day went to Vic Baher, the Holy Angels receiver, who drove in five runs with two long doubles and a scorching one bagger.

The box score:

HOLY ANGELS

	AB	R	H
B. McDonald, ss	4	2	0

Marilyne Eldrup To Give Piano Recital At Steinway Hall

Little Marilyne Eldrup celebrated her eleventh birthday this week and next Tuesday evening she will give her first piano recital.

But the concert, at 8:15 p. m. at Steinway Hall, Sutter and Kearny streets, will be no ordinary concert.

There will be the usual Bach, Mozart, Schumann and Chopin compositions to be sure. But there will also be one number composed entirely by Marilyne, with her own interpretation and dedicated to her grandmother, Mrs. Agatha Eldrup, well known in Daly City for many years, who passed away in July, 1946. The title of this composition is "Reverie at Sundown."

Other selections will be "Invention No. 8," Bach; "Sonata III," Mozart; "Nocturne Op. 23, No. 4," Schumann; "Grande Valse Brillante Op. 18," and "Deux Polonaise Op. 40 No. 1," Chopin; and "The Hurdy-Gurdy Man," "The Old Musical Box," and "Lament for a Departed Doll," Eugene Goosens.

Marilyne, the protege of Mrs. Josephine Haueter, her teacher, is the niece of Mr. and Mrs. Arthur Waldvogel, 134 Woodrow street; Mr. and Mrs. Erling Eldrup, Pierce street, San Francisco; and Ensign Gladys Eldrup, of the United States Navy.

Her parents are Mr. and Mrs. Rolph Eldrup, Fulton street, San Francisco.

Her grandparents are Mrs. Loura Keene, San Francisco, and Mr. Severin Eldrup, Daly City.

Black Bass Taken

Black bass, both large and small mouth varieties, were being taken last week in the riffles of the Sacramento River in Glenn county area, reports the National Automobile Club.

Daly City Eagles Bowling Team Is Leading League

The Daly City Eagles bowling team won three more games last week at the Burlingame Bowl and are still tied with Casa Mateo Lounge for first place in the league.

The Eagles have been smashing the pins these past few weeks. Led by Team Captain Rosaia, the team made a brilliant performance with Pearlman shooting a sizzling 605 series and the anchor man, Selmi, a 566 series.

Other scores are Rosaia, 521, Crane, 484, and Lazzari, 444. The total team shooting was 948, 839 and 845 and the Eagles barely missed making a league record.

Next week the Eagles will play the powerful Borden's team to find out who is the top team of the league.

The standings are:

Teams	Won	Lost
Daly City Eagles	23	13
Casa Mateo Lounge	23	13
El Camino Creamery	21	15
Borden's	20	16
6239 Club	19	17
San Bruno Legion	18	18
Wilsey and Co.	13	23
San Bruno Lions	7	29

Baseball School Starts August 30 At Jefferson High

Seven experienced baseball players will conduct a baseball school at the Jefferson Union High School baseball diamond on Saturday, August 30, at 1:30 p. m.

The arrangements are being made by Joe Bonowitz, president of the San Mateo County Boys Boosters Club, and Elman Rose, director of the Daly City recreation department.

Bonowitz will conduct the school. Included in the coaching staff will be Bert Dunne, Heinie Thompson, Bernie Deviereros (a major league baseball scout), Bob Evans, Hal Stoevan and Joe Bonowitz.

Parents are invited to attend.

"Boys, here is an opportunity to learn how to bat, pitch, field ground balls, catch and to play your favorite position," Rose said today.

Large Trout Taken

Anglers took many large cutthroat trout last week from Topaz Lake in Mono county, reports the National Automobile Club. Running from 2 to 7 pounds, most of the fish were caught with spinners and flat fish trolling.

John W. Matison Wins Promotion In U. S. Army

Pusan, Korea (Delayed): John W. Matison, son of Mr. and Mrs. Fred Matison, 131 Peoria street, Daly City, has recently been promoted to the rank of Technician Fourth Grade. He is now overseas in Korea assigned to the 20th Infantry Regiment as a Squad Leader in an Infantry Company. The 20th Regiment is a unit of the Sixth Infantry Division which is on occupation duty in South Korea.

T/4 Matison enlisted in the Regular Army in August 1946 and arrived overseas in November 1946 to join the Sixth Division in Korea. Prior to entering the service he attended the Jefferson Union High school in Daly City. He also was in the United States Merchant Marines before joining the Army.

Hardware Team Too Strong For Young Opponents

The Daly City Hardware defeated the Leopards 34-3 on Monday and then two days later gave the Daly City Midgets a 29-6 beating. Both games were played on the high school field at 10:15 a. m.

One factor in the favor of the Hardware teams is that it is composed mostly of 14 to 16 year olds while the other teams have boys from 8 to 12.

In the game on Monday, Findley, the Hardware pitcher, scored seven runs and three hits during his three times at bat. Giannaccini, first baseman for the older boys, scored a home run with the bases loaded.

Baher and Saueri each contributed a pair of the Leopard's runs while Baher scored one run.

The pitching was lax on both sides.

In the game on Wednesday when the Hardware defeated the Midgets, the player of the day was Buster Sheriff who played excellent ball and hit a grand slam home run. Matzek scored three runs and made three for three while Kalinin scored five runs and made three for six.

But again the Midgets were completely outclassed by teamwork and superior ability although Baker, Greenwald and Cafferatta made a good showing for themselves.

Death Comes To 84-Year-Old Widow

The mystery of Mrs. Cora Fish still remains unsolved.

Death came to the 84 year old widow who lived at 245 Los Olivos avenue on Monday after a long illness and with her went the mystery of her background and her small fortune.

Mrs. Fish was born on May 1, 1863, in Barre, Massachusetts. That was the year of the Emancipation Proclamation and the battles of Gettysburg and Vicksburg of the Civil War.

Facts are dim and sources are meager as to where Mrs. Fish was educated or whom she married or when she moved to California.

One old time Daly City resident says she was here in 1908 when he moved his family West. No one seems to know how long before that Mrs. Fish was a resident here.

Mrs. Fish for a number of years lived in a small house on Los Olivos avenue and rented several other houses on the same property. Various friends and neighbors came to take care of her from time to time.

But Mrs. Fish confided in few people and thought many of them were trying to get her money. At the time of the city's condemnation proceedings on the property the argument was brought up that the rents from the houses on her property were Mrs. Fish's only source of income.

However, other informed sources, who seemed to have the inside track on some of her financial affairs, said she had property in other sections of the San Francisco Bay area as well as in the East.

A trust fund of "several" thousand dollars is also said to have been left to a nephew, Reginald A. Seagrave, of Uxbridge, Massachusetts, who was named beneficiary of the estate.

Another nephew, Harry B. Seagrave, of Uxbridge, Massachusetts, and a brother, Clarence Johnson, who lives at the Community Hospital, also survive.

Funeral services were held this afternoon at the W. C. Lasswell and Company chapel. Inurnment was at Cypress Lawn.

County Dance Is Scheduled Sat.

The call for fun this Saturday evening will run something like this—

Square your set,
Honor your corners
Let's all dance
No Jack Horners.

It will be the occasion of the General Pershing PTA Country Dance in the Fire House at 335 Bellevue avenue.

Mrs. M. E. Nenstiel, president of the PTA unit, says that the series of country dances have provided an excellent social contact for the community and hopes that the enthusiasm and attendance will increase as more people become aware of this activity.

Higher Taxes Are In The Offing For San Mateo County

A higher San Mateo County tax bill for next year is in the offing now that Martin J. Flynn, county assessor, has raised county property assessment to $178,882,254, an increase of 13.41 per cent or $20,582,924 over last year's assessment.

No accurate prediction can be made as to the exact county tax rate but Controller Fred Beers has drawn a comparison with the increase in budget expenditures of some 22.5 per cent.

The assessment in Daly City was raised from $4,677,860 to $4,702,545. Colma was the only city in the county where the value dropped. Last year's assessment was $561,265 while the 1947 listing is $559,170.

Four cities in the county were increased more than $1,000,000 and both San Mateo and Redwood City were raised more than $2,000,000.

San Mateo's assessment was raised from $21,332,775 to $23,370,020. Redwood City's assessment was upped from $9,837,585 to $12,153,700.

In the 12 incorporated cities in the county values were raised from $91,597,175 to $101,259,215, an increase of $9,662,040.

In unincorporated sections, $2,907,570 was added to last year's $37,546,300 for a new total of $40,453,870.

Veterans exemptions in the county totalled $11,306,255. Daly City counted for $369,595 of this total. The veteran's exemptions in Colma were $459,420.

Vets May Obtain Home Financing To Exceed $10,000

A change in the State Farm and Home Purchase Act will make it possible for California veterans to obtain financing under the state plan for homes which are priced in excess of $10,000, providing the appraised valuation does not exceed that amount, Floyd D. Granger, Veterans Service Officer, said today.

The Legislature removed the previous limitation on purchase price in view of the fact that many veterans have been forced to pay more than $10,000 in the present inflated real estate market for houses which normally would be eligible for purchase under the veterans' program.

No change was made, however, in the $7,500 maximum which the State can advance for the purchase of a veteran's home, Granger explained. The new law, therefore, will be of particular importance to veterans who have substantial equities in homes purchased through other forms of financing, or who have sufficient cash to make up the difference between the $7,500 state maximum and the purchase price.

Similar provisions apply to farm purchases for veterans, except that the State may advance up to $13,500 for the purchase of a farm valued at not more than $15,000.

Veterans qualifying for farm or home purchases under the state plan repay the entire amount advanced by the State over a 20 year period. The interest rate, redetermined periodically in accordance with economic conditions, is three per cent at the present time. Veteran contract holders also receive the benefit of fire insurance coverage at about half the usual commercial rates, and life insurance protection which pays off the outstanding balance of the contract in case of a veteran's death.

The removal of the limitation on purchase price does not take effect until September 19, but Granger said he has been informed by the State Department of Veterans Affairs that proposed purchases under this provision may be submitted now with the understanding that final action will not be completed prior to that time.

Veterans may obtain assistance in filing applications for eligibility under the state program at the Veterans Service Office, located at San Mateo County Courthouse, Redwood City.

Lake Fishing Improves

Fishing in the higher lakes of Mono and Inyo counties is becoming very good, reports the National Automobile Club. Anglers have recently brought out several limits from the high areas in the back country.

Many Common Notions on Dogs Have No Facts Back of Them

Color of Coat No Index to Dog's Temperament, Research Center Finds

Despite the fact that no animal has been more closely associated with mankind through the ages than the dog, a large portion of the public, including many owners, still entertains a surprising number of fallacies pertaining to dogs, states the Gaines Dog Research Center, New York City.

Old wives' tales and superstitions, handed down for generations, are still firmly held to in many sections, notwithstanding the fact that scientific investigation has proven these stories to be nothing more than amusing bits of folk-lore, it says.

An amazing number of people believe, for instance, that mongrels are smarter, healthier, braver and more loyal than pure-bred dogs. There are undoubtedly a great number of cross-breds which possess all these attributes to a high degree, but the supposition that mixed parentage creates a superior animal is absurd. Were this fact true, mongrels would be commanding top prices as companions and guardians, while pure-breds would be a drug on the market.

The belief that mongrels are hardier than pure-breds may have come into being as a result of the fact that the average mongrel, if injured or ill, is generally left on his own to live or die, while the owner of a pure-bred will usually secure veterinary attention. It stands to reason that the pure-bred dog, which has had good care and proper food from puppyhood on, is likely to be the sounder specimen than the cross-bred which has grown up on a catch-as-catch-can basis. As for intelligence, if mongrels were smarter and more loyal, why are pure-breds used for guiding the blind, serving with the armed forces, and carrying on rescue work?

A belief common in many places is that the color of a dog's coat indicates his temperament and character. One theory is that red (reddish-brown, really) dogs are inclined to be savage and aren't to be trusted. Another opinion holds that certain heavy dark markings on a hound indicate superior hunting ability. The color of his coat hasn't the slightest relation to a dog's disposition. There are just as many gentle, friendly, intelligent dogs with red coats as

No guessing about what a pure-bred puppy will grow into.

of any other color, and dark spots and markings on a hound only indicate that he is descended from ancestors carrying heavy color patches—nothing more.

Besides holding unreasonable ideas about the dogs themselves, many people also have strange notions about the proper care of their dogs. One of the most persistent is that a lump of sulphur placed in his drinking water benefits a dog's health. Many virtues —such as that it acts as a water purifier, exterminates worms, imparts glossiness to the coat, "cools the blood," etc.—are ascribed to this practice. Science does not substantiate any of this. As a matter of chemistry, sulphur is insoluble in water and a block of wood in the drinking bowl would do just as much good.

Many times a friend or neighbor will remark to the owner of an overweight dog, "I see that your dog has a good home." The dog may have a loving home, but certainly not a wise one, for a fat, over-fed dog's chances for a long life are materially reduced. He is being killed with misplaced kindness. The dog whose owner regulates the feedings so as to keep the animal in "good flesh" (trim, but not boney) will be a happier and healthier pet than the waddling, wheezy canine whose owner insists on feeding him too well. The maxim, "A lean horse for a long race," holds equally true for dogs, according to the Research Center.

Winners Compete For Championship At High School

Tournament winners from the five Daly City playgrounds will compete for the city championship at the high school playground next Thursday morning.

The boys and girls will compete separately in two age groups, under 11 and from 12 to 15 years. Tournaments for this group will be held in table tennis, paddle tennis, basketball free throws, basketball twenty-one, football pass through tire for boys, soccer throw through tire for girls, softball throw for accuracy and checkers.

Girls eight years old and younger will compete in jacks, hop scotch, O'Leary, and jump rope.

Winners will get free swims and award certificates. Semi-finalists will also receive award certificates. A banner will be awarded to the playground scoring highest in the total competition.

WILBUR FELLOWS IN MEXICO CITY---

Wilbur Fellows, who was graduated last month from the San Mateo Junior College, is spending the summer as a student at the College of Mexico City before he takes up language work at the University of California in Berkeley this fall.

* * *

One of Mexico City's two bull rings is the largest in the world and has a seating capacity of 44,000 people. Every Sunday afternoon there is a bull fight and at four o'clock sharp the clear and shrill notes of the trumpets sound and black-dressed horsemen appear to start the show by leading the cuadrilla or troupe of the matador and his assistants.

Walking to the sound of the very stirring music is the most beautiful sight I have ever witnessed. The three matadores lead the three groups and following each other in order are the banderilleros, picadores and monosalros, all dressed in gaily colored costumes.

As soon as the troupe has returned under the stands, the first bull is turned loose. The banderilleros play with the bull for several minutes with their capes to give the matador time to study the bull. Then the two mounted pacadores enter. They are horsemen with a lance and it is they who receive the first attack of the bull and excite him by prodding him without trying to kill him.

The banderilleros re-enter the ring and each of them thrusts a barbed dart, or banderillas, into the neck of the bull.

During the time, the horses get quite a beating, although the men are well protected by heavy body shields.

This is one of the most exciting bits of work of the fight because it takes much skill and speed to rush an oncoming bull and then jump between his horns and thrust the two yard long banderillas into his neck.

By this time the bull is pretty tired although the blows of the pikes and banderillas have not affected him much. The matador reappears and makes passes with his red cape for several minutes. One of the most dangerous feats is when the matador gets down on his knees and makes several passes with the bull rushing toward him.

After several minutes of cape work the matador makes the sign of the cross with his sword and lunging upon the bull thrusts the sword into the nape of his neck. Sometimes it takes two or three such thrusts before the bull is finally overcome.

Then the bull is dragged away to the sound of the victorious "Diana," played by the band.

I believe that you will see what an exciting sport bullfighting is and why I spend quite a few afternoons at the arena.

Winifred McGrath Appointed To Office In Portola Parlor

Miss Winifred McGrath, principal of the General Pershing School, has been appointed deputy grand president to the Portola Parlor, Native Daughters of the Golden West, and will be officially presented to the parlor tonight.

The appointment was made by Miss Doris Treat, state grand president of the order.

Miss McGrath is the past president of the Mission Parlor No. 277, NDGW.

Giovanni Leveroni Funeral Services Held Last Tuesday

Funeral services for Giovanni Leveroni, 66, a gardner for the Metropolitan Housing Project, were held last Tuesday from the chapel of the Valente, Marini, Perata & Company. Interment was at the Italian Cemetery following a mass at the Holy Angels Church in Colma.

Mr. Leveroni, a native of Italy, lived at Route 1, Box 23, Colma.

He was the father of Mary Garibaldi, Della Perata and Ida Antista, William and Shirley Leveroni.

"Stop" Signs

"Stop" signs mean "stop" not just hesitate, declares the Public Safety Department of National Automobile Club. At such signs motorists should come to a full stop and not proceed onto the main boulevard until they are quite sure that it is safe to do so.

Driving Down Hill

Excessive speed is always dangerous but it is especially so when driving down hill, warns the public safety department of the National Automobile Club. Should you have to stop in a hurry everything is working against you, including the pull of gravity.

Reduction of the public debt is necessary if we are to avoid inflation, says a University of California economist.

S. M. County Float Wins First Place In Lions Parade

A float which proclaimed "San Mateo County — Our Nation's Flower Garden" won first place in the International Lions Convention parade in San Francisco on July 28. More than 60,000 flowers were used in making the float which was entered by the San Mateo County Association of Lions Clubs.

The float showed a patio with a sunburst of flowers. A rainbow led to a pot of gold.

The float was made up of white dahlias, large chrysanthemums, asters, carnations, marigolds, daisies and gardenias. Girls on the float were dressed in long formals and threw approximately 200,000 gardenias to the crowds lined up along the parade route from the Ferry Building to the Civic Center.

Recreation Dept. Starts Plans For Night Programs

The recreation department has started plans on two night programs to give parents and other interested adults an opportunity to see "recreation in action" in Daly City.

Reserve August 20 and 27 for these programs.

On Wednesday evening, August 20, from 7 to 9:30 p. m., a craft and hobby exhibit and an auditorium program will be held at the Jefferson Union High School.

This will be followed a week later with a program at the high school gym. On the program, also from 7 to 9:30 p. m., will be a boxing tournament and exhibitions in tumbling, wrestling and folk dancing.

Make plans to attend now—you'll enjoy seeing the boys and girls of Daly City in an active program. See "recreation in action."

Eight Are Injured In Traffic Accidents Near And In Daly City Over Week End

A three-year-old Colma girl and a San Bruno man were among the eight persons injured in traffic accidents in Daly City over last week end.

Sheila Slattery, 3, daughter of Mr. and Mrs. John Slattery, Broadmoor Village, Colma, suffered head and leg injuries when she was run over Saturday afternoon by a car said to have been driven by Mrs. Alice M. Hair, San Francisco.

Deputy sheriffs who investigated the accident said the child was among a group playing on Heather road in Broadmoor Village and that all of the children except little Sheila left the street when they saw the car turn onto Heather road from Washington street.

Two men are still in the hospital as a result of an automobile accident last Friday on Junipero Serra boulevard north of School street.

Seriously injured were Ralph E. Frederick jr., San Bruno, who received a bad laceration of the head, and Clarence Fraser, San Francisco, who deceived deep lacerations of the head, concussions, and contusion of the chest.

Fraser's wife, Claire, and his daughter, Laurine, 8, received minor lacerations.

According to the police the accident happened when the car driven by Frederick collided with the car driven by Fraser.

A man and his woman companion were injured in a head-on collision between a sedan and a truck shortly before dawn Monday on Junipero Serra boulevard near School street.

Jonathan L. Lee, San Francisco, driver of the sedan, sustained cuts and bruises and a possible broken foot and dislocated shoulder.

Katherine Culver, San Francisco, a passenger in Lee's car, received bruises and lacerations. She was treated and dismissed but Lee is still in the hospital.

Caesar Marsili, 38 San Pedro avenue, Daly City, driver of the truck, was not injured.

Both vehicles were severely damaged. Lee's car, a 1934 Hudson sedan, was towed to the Daly City garage.

Marsili told police he was driving north on Junipero Serra boulevard with a load of vegetables when the sedan approached him on the wrong side of the road.

Lee was given a tag for violating section 144 of the street and highway code.

Miss Culver said she and Lee were in Sharp Park for most of the evening and were on their way home.

Albert P. Brush, Daly City, and Donald B. Robinson, Palo Alto, were cut and bruised when the cars they were driving crashed head-on Saturday evening on Bayshore Highway east of San Carlos.

Robinson told highway patrolmen he swerved to avoid hitting a car that had stopped in front of him and in so doing swung in front of Brush's car.

On Sunday afternoon there was another accident on Junipero Serra boulevard, this time at the junction of Highway No. 1. Kenneth Robert Mahoney, San Francisco, received lacerations of the left hand when his motorcycle collided with or was hit by an automobile driven by Peter A. Soriatos, San Francisco.

The other accidents of the week end involved minor property damage.

On Saturday evening there was an accident at Mission and Vale streets which involved automobiles driven by Herbert R. Higgins, Grand Rapids, Michigan, and Harold D. Coon, 5724 Mission street, San Francisco.

According to the police, Higgins ran into the right rear fender of Coon's car while making a turn.

On Friday afternoon Edna May Deskins, Barstow, California, and Antone Souza, 6991 Mission street, were involved in an automobile accident.

On Thursday there was an accident on Woodrow street between Westlake avenue and Citrus street between cars driven by R. L. Stevens, 6601 Mission street, and Joseph J. Ostergren, 340 Woodrow street. Damaged was the left rear fender of Ostergren's automobile.

General Pershing PTA Needle-Thread Club Have Day Of Fun

The picnic lunch was a poor competitor for the trained seals, wading pools and hungry felines at Fleishhacker Zoo last Friday when the General Pershing PTA Needle and Thread Club took time out for recreation.

The mothers carfully packed complete lunches for themselves and the little ones, and arranged a full day of fun. Events just took care of themselves and competitive games for the children were the only organized events of the day.

Everyone came home tired, satisfied — and smiling at the goodbye wave of one little brown bear.

Use Good Cranberries

Be sure to discard shriveled or soft cranberries before using the fruit since these few poor fruits may give the food a bitter taste. Cranberries can be used in pies with raisins, to reduce the use of sugar, yet make an excellent dessert that has the real cranberry flavor.

TAX RATE

(Continued from Page 1)

ation is found. This year the total is $7,808,485 as compared with last year's $7,560,032.

The unsecured personal property taxes for this year are $207,165 as compared with $197,042 for last year.

The public utility taxes for this year have not been set up but last year's taxes showed an assessed valuation of $442,210. Taxes were figured on $685,240.

It is assumed that the public utility taxes for the present year will be the same as last year.

When the general property, personal property and public utility taxes are added the total was $8,441,324 last year. If the public utility taxes this year are roughly the same as last year, the total valuation for taxation will be around $8,715,650.

After the tax rate is decided at council on Monday, the tax rate times the total valuation gives the amount of taxes.

The total taxes for last year were $109,362.69. The anticipated current taxes for this year will be $103,680, according to the 1947-48 budget. The new buildings, however, may raise taxes above this anticipated figure.

In the 1947-48 budget the tax rate in the old city and in annexes one and three were figured as follows:

General government	$ .821
Library maintenance	.06
Water works reserve fund	.045
Fire alarms system reserve fund	.074
State employees returned retirement fund	.188
1938 city hall bond fund	.054
1941 fire department improvement bond fund	.054
Total	$1.296

Annex four does not pay for the 1938 city hall bond fund so their tax rate is only $1.242.

Needy Aged Relief Increases In County

The relief rolls of San Mateo County are increasing.

A total of 1500 people received aid as needy aged during June, 1947, compared with 1336 in June a year ago, the California Taxpayers' Association reports.

Aid to the aged in the county totalled $77,701 this June compared with $62,776 in June, 1946.

Beginning Sunday, August 10

LOOK UP ALL TELEPHONE NUMBERS

in the New Directory—before you call

BUGS BUNNY
© Warner Bros. Cartoons, Inc.

325,000 telephone numbers that are right today will be wrong on Sunday when almost all numbers in San Francisco and the East Bay change. In most cases the only change is the addition of a numeral to the central office name: MArket 5997 will become MArket 1-5997, for example. Several thousand numbers change completely. The only way you can be sure of getting the right number is to look in the new August 10 directory. Wrong calls may seriously overload equipment, and it is in the interests of good service for all our customers to make certain of the new numbers before calling.

Your old directory should be thrown away August 10. Most numbers in it will be wrong on and after that date. If you use it and call an old number, your call cannot be completed or will be delayed.

If you correct your personal number lists, you'll save time in using the telephone. For your convenience we are providing a handy personal telephone list booklet along with each new August 10 telephone directory.

Wait for the dial tone. Tell your friends your new number... look up all numbers in the new directory beginning Sunday. Your cooperation will be appreciated. Thank you.

REMEMBER Most San Francisco and East Bay telephone numbers change Sunday, August 10.

The Pacific Telephone and Telegraph Company

When Your home has a real

FAMILY-SIZE Automatic GAS

water heater

When Johnny dawdles neck deep in a steaming tub bath, he is using from 15 to 20 gallons of hot water. And there is going to be a shortage of hot water supply unless that house is properly "sized-up" with an adequate, family-size Automatic Gas Water Heater. Too often water heaters are bought just by the old time custom of "get a new water heater".

Use the sizing chart below the next time your home needs a water heater or for the new home you are about to build. For example, a two bathroom house with two or three bedrooms would require a 40 gallon water heater. And right now fine quality, dependable Automatic GAS water heaters are in good supply everywhere. See your local gas appliance dealer today. He will help you "size" the water heater to fit your home and family needs.

Check Your Family's Minimum

Daly City Record

THURSDAY, AUGUST 7, 1947

Apartment Income Up 25% Over 1939 Level

Net operating income of apartment house operators in 1945 was up 25 per cent over 1939 levels despite a five per cent rise in total expense during the same period.

These comparative increases are shown in a study of rent control made on the Berkeley campus of the University of California by the University Bureau of Public Administration. Authors of the report are Margaret Rohrer and Douglas Frame.

While total expense has increased five per cent, depreciation charges have remained fairly constant and interest rates have declined, with net operating income up 24.9 per cent, the authors find. Expense to the apartment operator has been kept down, in part, by the elimination of such items as competitive decorating and advertising, and the reduction of unessential and minor services.

Much of the income raise can be traced to full occupancy, according to the report. In 1939 the loss of rental income from unoccupied apartments was nine per cent; in 1945 such losses had dropped to three-tenths of one per cent.

Linings Give First

The phrase "brake linings are designed to wear out" is one that puzzles many motorists, states the National Automobile Club. Explanation lies in the fact that since something must wear when two surfaces come together the lining is chosen in preference to metal parts, which cost more.

Deer Hunting Prospects

Deer hunting should be good when the season opens in the mountains of Colusa county, predicts the National Automobile Club. Several bucks have been spotted in the vicinity of Wilbur Springs.

Pedestrians

Be considerate of pedestrians, advises the public safety department of National Automobile Club. They have the right to safe passage across the street or highway, and courteous motorists will not deny them that right.

Deer Hunting Prospects

Deer hunters should enjoy excellent sport in San Diego county when the season opens there, according to the National Automobile Club. Although deer are numerous in the Mount Laguna region, in the vicinity of Cuyapape Indian Reservation, hunters might have trouble getting permission to hunt on private property.

S. Lake Tahoe Festival

South Lake Tahoe Festival will be held August 9 at the south end of Lake Tahoe, according to the National Automobile Club. Sponsored by the South Lake Tahoe Rotary Club and running throughout the day, the Festival will start with speedboat races in the morning, continue with a "Lady of the Lake" beauty contest, and conclude with a dance at Bijou and the raffling off of a mountain cabin.

Peak Motor Travel

August is the peak month for motor travel in the United States but the peak in traffic accidents comes in December, according to the National Automobile Club.

Black Cod Run

A large run of black cod last week entered Monterey Bay, Monterey county. Anglers along the wharves were taking great numbers of these fish on hook and line.

Telephone Numbers Will All Change This August 10

This coming Sunday, August 10, is "number change day." About 325,000 out of 400,000 telephone numbers in San Francisco and East Bay will be changed on that day to include a numeral in the central office name.

In reminding telephone users of the change, Lyle M. Brown, San Francisco division manager of the telephone company, said that beginning Sunday all central office names in San Francisco and East Bay will include a numeral and it will be necessary to include it when dialing or calling. To avoid calls going astray, he suggested that before placing calls users look in the new August 10 telephone directory for the new number as about three out of every four of the present numbers will be changed Sunday, August 10.

Deliveries of the new directory have now been completed, he said, and the old books should be thrown away in favor of the new Sunday.

"We realize that a change of this size is an inconvenience," said Brown, "but it is necessary in the expansion program now under way to meet the requirements for growth. The new number change plan will pave the way for additional central offices to be installed during the next few years and will also make possible the gradual extension of direct dialing of calls to other cities by operators."

Some Chevrolet Models Take Price Increases

Increased prices on Chevrolet station wagons and convertibles were announced today by Nicholas Dreystadt, general manager, Chevrolet Motor Division.

The price of the station wagon is advanced approximately $100 and the convertible about $75. Prices of all other Chevrolet models remain the same.

Dreystadt pointed out that station wagons and convertibles incorporate a relatively high percentage of parts supplied by outside sources, the cost of which has increased sharply in recent months. This plus the fact that both models are produced in low volume make these price adjustments necessary, he said.

U. C. Psychiatrist Invited To China

Dr. Karl Bowman, noted psychiatrist in the University of California Medical School and medical superintendent of the Langley Porter Clinic, will fly to China August 12 as a consultant of the World Health Organization of the United Nations.

Dr. Bowman has been asked by the United Nations to help set up the National Neuropsychiatric Institute of Nanking, which is under the auspices of the World Health Organization. He will be in Nanking three months, consulting with a former student of his, Dr. Leslie Yu-lin Ch'eng, who has been appointed director of the Institute, and with Dr. Ch'eng's staff.

The Nanking Institute will be the training center and focus of teaching and research in psychiatry for all of China. A 50-bed ward will be set aside for teaching and research.

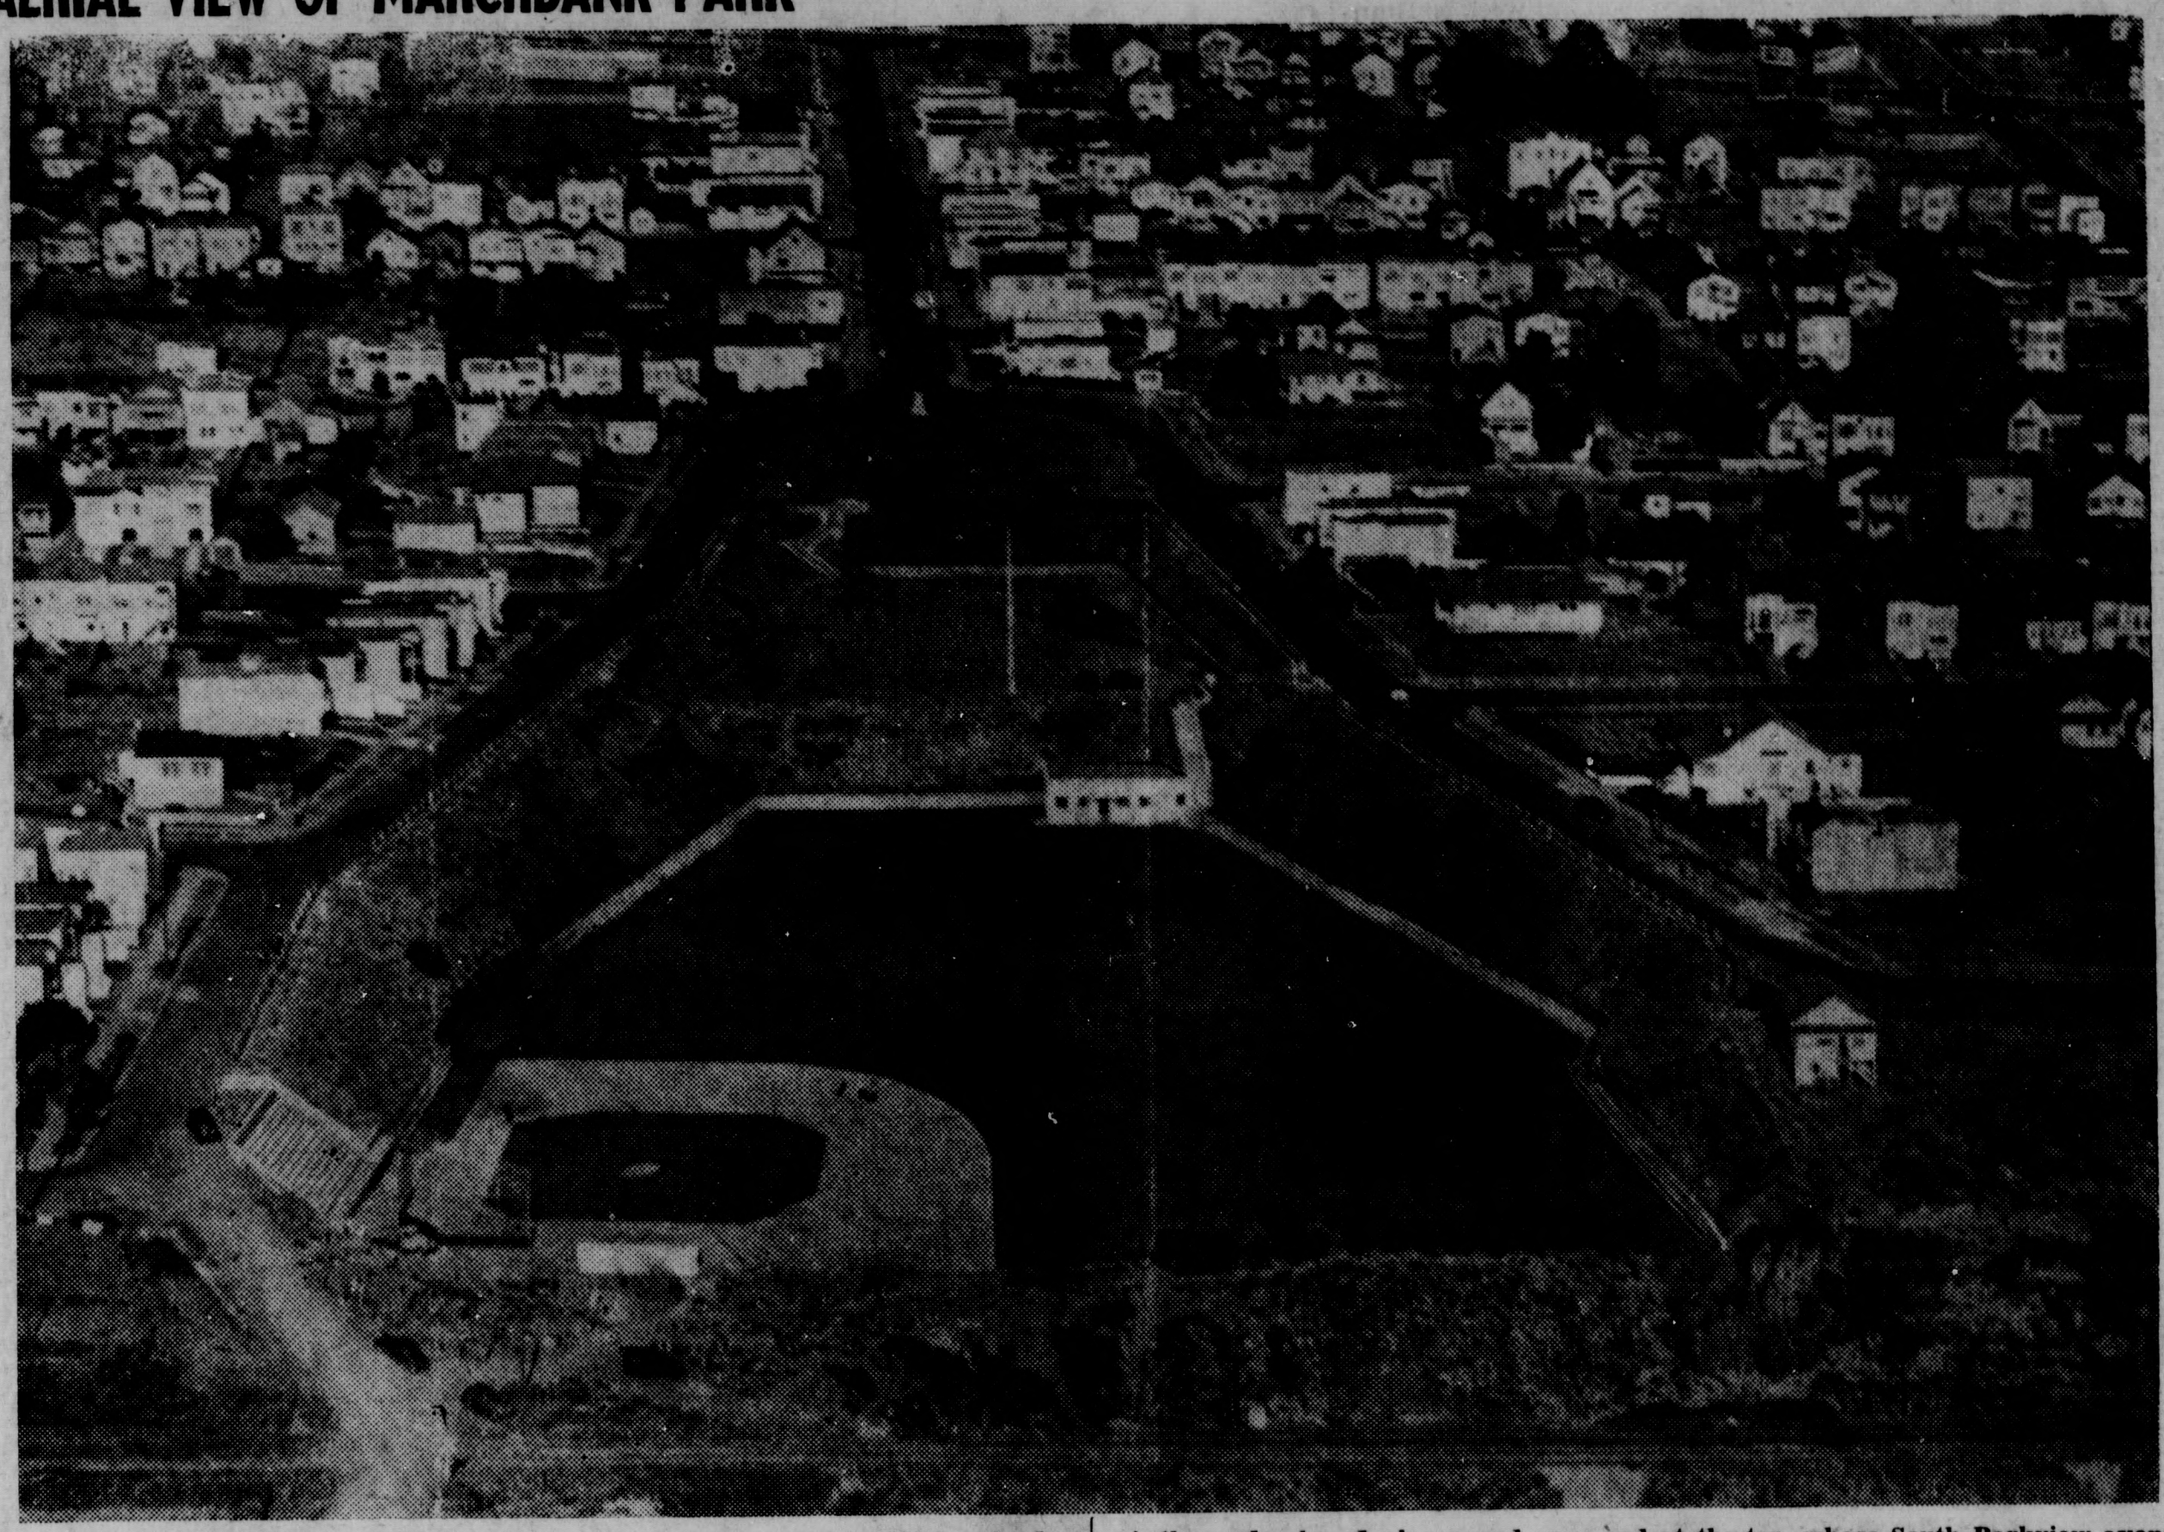
AERIAL VIEW OF MARCHBANK PARK



The above aerial view of the huge seven acre Marchbank Park, which extends for four city blocks, gives a better understanding of the proposed city recreation plan which, if adopted, would provide more diversified activities for Daly City residents of all ages. At the bottom of the photograph is the ball diamond; in the center is the undeveloped playground area; and at the top, where South Parkview avenue (on the right) and North Parkview avenue (on the left) join is the upper playground area, now paved. The picture was taken from the air directly above Junipero Serra Boulevard. —Record Photo

News Column For The Vets

July 25, 1947, has been established by the United States Senate and the President as the final day which may be counted by service men and women as service during World War II in establishing eligibility for important war veteran's benefits.

The Veterans Administration reports that for purposes of education and training, loan guarantees and readjustment allowances under the G.I. Bill, and for vocational rehabilitation of disabled veterans under Public Law 16, the period considered war service thus becomes September 16, 1940, through July 25, 1947.

Persons entering service after July 25, 1947, will not become eligible for G.I. Bill benefits and any compensation or pension awarded such veterans and their dependents as a result of their service will be paid at the lower peacetime rates, instead of the higher war rates.

In order to be eligible for benefits under the G.I. Bill a veteran must have served at least 90 days on active duty at any time during the period of September 16, 1940, through July 25, 1947, and subsequently discharged under conditions other than dishonorable.

Veterans with less than 90 days service who were discharged for service-incurred disabilities are also eligible under Public Law 16.

July 25 also becomes the date from which the following statutory time limitations will be figured:

1. G.I. Bill education or training must be started within four years of that date or date of discharge, whichever is later, and the program ends in nine years.

2. All Public Law 16 training ceases in nine years from July 25.

3. G.I. loan guarantees remain available for 10 years after July 25.

4. Readjustment allowances may be claimed until two years after July 25 or date of discharge, whichever is later and the program ends five years from July 25.

Question: I have been drawing $57.50 each month from my $10,000 war risk insurance policy since my discharge from the army after World War I. Are such payments discontinued when the $10,000 is exhausted?

Answer: No. Payments may be continued for the remainder of your life provided your total disability remains unchanged.

Question: My son, a World War II veteran is in a VA hospital and I would like to know if I can visit him every day.

Answer: Yes. All Veterans Administration hospitals have special hours set aside each day for visitors the same as civilian hospitals.

In order to receive prompt replies to letters addressed to the Veterans Administration, veterans are urged to "write right" by fully identifying themselves.

The annual volume of mail received by VA totals more than 125,000,000 pieces, equal to the receipts of the entire city of Seattle, Washington.

The VA Branch 12 area (California, Arizona, Nevada and Hawaii) with more than 1,500,000 veterans receive more than 14,000,000 pieces of mail during the 12 months ending May 31.

Each piece of incoming mail requires an answer or some administrative action. With the cases of a million and a half veterans, plus thousands of dependents, in their files it is imperative that each veteran fully identify himself when writing the VA.

If the veteran observes the following simple rules he will expedite his correspondence with VA:

1. Write only when absolutely necessary.

2. When writing, include full name, Army or Navy serial number, address and C-number (if assigned one by VA), or N-number (if letter pertains to G.I. insurance).

Each day's mail brings some letters which defy reply. Letters are received with only the signature of "John Johnson" or "Sam Smith." There are thousands of Johnsons and Smiths in VA files

Another letter asked VA's help in finding a wife; another veteran requested VA to help him buy candy for his retail confectioners shop and others have bared their personal problems, ranging from domestic difficulties to job-finding troubles.

Question: I have a lender who will lend me money under the provisions of the G.I. loan, but he wants additional security. Does the law allow him to ask for security?

Answer: Yes. This is a matter between you and the lender. While Veterans Administration does not require additional security be given, it does not object if the veteran is willing to give it.

Question: I am a widow of a World War II veteran and I want to buy a home. Can I obtain a guarantee of loan?

Answer: No. The privilege is limited to veterans of World War II.

Question: Can I obtain a guaranteed loan to purchase household

Super Highways Will Get Preview By Fair Visitors

Visitors to the California State Fair to be held in Sacramento August 28 through September 7, will get a preview of the highways of tomorrow, according to G. T. McCoy, state highway engineer.

"Now that the Collier - Burns Highway Act is a reality," McCoy said, "the Division of Highways will be able to speed up its post-war construction program. Many traffic hazards and bottlenecks which have irked California motorists for years are now being eliminated, and more are scheduled to vanish as the program swings into high."

One of the foremost projects now under way is the North Sacramento Freeway, scheduled to be completed by September 1. This $1,800,000 four-lane divided highway will by-pass the North Sacramento business district.

Visitors to the fair from the Bay Area travelling via U.S. Highway 40 will find that the crawling lines of traffic on the two-lane highway will literally vanish when they reach Vacaville. Two contracts recently completed at a combined cost of $1,600,000 have extended the four-lane divided highway leading into Sacramento twelve miles westerly.

Fair-bound motorists from the southern part of the state will converge on Stockton for the last lap to the Capitol, where they will find another recently completed divided highway, the eight-mile, $800,000 four-lane section of U.S. 50-99 from the Calaveras River to Lodi.

Many out-of-state visitors from the east, attracted to California by the fair, will come into Sacramento via Placerville, where they will ride on a new 3.4 mile section of U.S. Highway 50 between El Dorado and Shingle Springs, recently completed at a cost of $272,000.

Salmon Fishing First-rate

Salmon anglers were enjoying first-rate sport last week on Humboldt Bay, Humboldt county, according to the National Automobile Club. Everyone who trolled low and deep with anchovies caught fish.

Del Norte County Fishing

Both sport and commercial fishermen took enormous catches of salmon last week from the waters off Del Norte county, reports National Automobile Club. Anglers were also taking salmon and steelhead from the lower Klamath River, and salmon and trout from the Smith River and its tributaries. Trout limits were being taken on flies.

Large Halibut Taken

Large halibut were taken last week off China Beach north of Capitola, Santa Cruz county, reports the National Automobile Club. Most of the fish were being taken by skiffs trolling just outside the surf.

Find Rumors Of Overcharging Are Really Groundless

A rumor which should be scotched, for the benefit of easterners planning a trip to California, is the one about the gouging by hotels and motels. After a very careful investigation by representatives of the California Mission Trails Association, not one case of overcharging the tourist was found in the entire Mission Trails area. It is true that many hotels and motels have raised rates, sometimes as much as 20 per cent, but certainly rooms which have rented for $3.50, to be raised to $4 could not be called gouging in any sense of the word, and in the majority of instances the raise taken was more often 25c a room rather than the 50c quoted here. Persons planning a trip to Califorina would do well to write to some legitimate agency, like the California Mission Trails Association, and get published rate schedules on various hotels, motels, etc.

Another rumor, that there is a shortage of gasoline in the Pacific Coast states, is entirely unfounded according to the statement of H. D. Collier, chairman of the Board of Standard of California, as released today. "West Coast motorists and tourists visiting here from other states need not worry about getting gasoline for their automobiles as there is more than a sufficient supply. The alarm sounded about 'military requirements' can be more than satisfied, if true, by opening up the Elks Hills Naval Reserve field. All that is necessary is to open the valves on wells already drilled, thus increasing the output beyond all posible peacetime needs."

It would be well for the people of this area to write their friends in the east and scotch these rumors once and for all, as it is a definite threat to the good name of our fair state.

Builders of Empire

THE IMMIGRANTS
Millions of these farsighted people have uprooted themselves from the soil of their homelands and sought greater freedom in the land of opportunity. Too, they have found the answer to their dreams in the reality of our great democracy.
Leadership. In every community there is one person, one group, or one firm to whom the people look for leadership. Our record of leadership has come from supplying only the best in building materials to our customers. It is a record based on price, selection and quality, one that you should take advantage of today!

B.F.Goodrich Tires
Now at LESS than PREWAR PRICES!
Looking for a postwar tire that *really* outwears prewar tires? Then cast your eyes on the new B. F. Goodrich Silvertown that's been *proved* and *approved* in millions more miles of service than any other postwar tire.
Of course, there are reasons these tires travel farther. (1) A wider, flatter, huskier tread puts more rubber on the road; greater contact that means less wear at any one point, longer mileage and more sure-footedness. (2) More and stronger cords take more strain from road shock and resist blowouts better.
OUTWEAR PREWAR TIRES!
But the best news is today's low price—lower, in fact, than prewar with a Big Trade-in Allowance for the unused mileage in your present tires.
Every B. F. Goodrich Tire Carries This LIFETIME GUARANTEE
"Every tire or tube of our manufacture bearing our name and serial number is guaranteed to be free from defects in workmanship and material without limit as to time or mileage."

Good News For Farmers

DETROIT—The new Ford tractor is rolling off production lines at Fords Highland Park plant, Detroit, at the rate of 400 daily. Smooth enough for a girl to operate, farmerette Gloria Carlson handles the tractor like a veteran as she puts it through its paces on the Dearborn Motors educational farm at Clarkston, Michigan. Designed for easier, faster farming, the new model, marketed nationally by Dearborn Motors corporation, features an improved hydraulic system for implement control and four forward speeds.

WHERE TO GO --- WHAT TO SEE --- WHAT TO DO

The over-all picture for the coming week end of August 8, 9 and 10 is a fairly quiet one according to the Travel and Recreation Committee of the California State Chamber of Commerce. A new festival will be inaugurated at Bijou, Lake Tahoe, with speedboat races, bathing beauties and the raffle of a mountain cabin in the region. The weekly musical program in the Armstrong Redwood Grove's outdoor theatre, near Guerneville, will be held from 2-4 p. m. A rodeo is scheduled at Lower Lake and a festival of flowers at La Mesa.

Knocti Caballo Club Rodeo, **Lower Lake,** August 9-10

Holy Ghost Celebration finale, **Dixon,** August 9-10

Musical Redwoods, Armstrong Redwood Grove, **Guerneville,** August 10, 2 to 4 p. m.

South Lake Tahoe Festival, **Bijou,** August 9

Weekly Garden Tour, **Santa Barbara,** August 8, 2 p. m.

Pacific Coast Championship Regatta, **Santa Barbara,** August 4-10

Bing Crosby Handicap, Del Mar Race Track, **Del Mar,** August 9

Fiesta de las Flores, **La Mesa,** August 9-10

Star Light Opera, Wegeforth Bowl, Balboa Park, **San Diego,** "The Firefly," August 9-10

Yellowtail Fishing Derby, **San Diego,** continues daily through August 24

Fire Hazard

Light snowfall and a shortage of rain last winter have created a serious fire hazard in California this fall, warns the National Automobile Club. The countryside is extremely dry and a burning cigarette or match thrown from a passing car could easily destroy large areas of our valuable natural resources.

Inaugurate New Lake County Flight

With announcement of Southwest Airways' August 1 schedule changes, Michael E. Cole, general traffic manager, has revealed that daily round trip service from San Francisco Municipal Airport to Clear Lake, in Lake county, has been authorized by the Civil Aeronautics Board.

Inauguration of this service was tentatively scheduled for early this month. One flight daily will leave San Francisco at 11:30 a. m., arriving Middletown Airport, Lower Lake Area 12:03 p. m., and returning 12:15 p. m.

Cole also reported that service has been reinaugurated into Coalinga, where that city has completed work on its airport landing strip.

Traffic "Weavers"

"Don't be a 'weaver'," advises Bert Stewart jr., director of public safety for National Automobile Club. "Drivers who weave in and out of traffic may get there quicker, but all too frequently they don't get there at all. To avoid serious accidents drive in the proper lane and stay in the proper lane as consistently as possible.

Largest U. C. Budget Approved By Regents

A 1947-1948 University of California budget of $36,990,368.82, larger by $6,375,831.25 or 21 per cent than that of the previous year, has been approved by the Board of Regents on recommendation of University President Robert G. Sproul.

"The 1947-1948 budget is by far the largest that has ever been presented to the Regents," President Sproul told the Board. "It is nevertheless a conservative estimate of the needs of the University in a time of heavy demand and high costs."

The larger budget, President Sproul pointed out, not only reflects increased spending rates established last year by the phenomenal rise in enrollment and by State provisions for salary increases due to continuing enrollment growth and rising salary and price levels. The budget, he said is based upon an estimated enrollment of 45,000 students on the University's eight campuses in the next school year.

By location, expenditures are estimated as follows: Statewide, $8,705,046.19; Berkeley, $12,909,530; Davis, $3,121,693.97; La Jolla, $213,023; Los Angeles, $6,099,949.13; Mt. Hamilton, $108,930.05; Riverside, $830,875; San Francisco, $3,607,920.48; and Santa Barbara, $1,393,401.

Plant Breeder Produces Almost Tearless Onion

Housewives now can peel onions without weeping their eyes out, because a tearless — well, almost tearless — onion has been produced by Dr. Glen N. Davis, assistant professor of truck crops in the University of California College of Agriculture at Davis.

California Hybrid Red No. 1 comes pretty close to the perfect, nonirritating onion, he says.

"But it's not completely tearless," he cautioned. "It's just much less painful to the eyes than other onions. It is exceedingly mild, has an unusually sweet flavor, and is especially good for eating raw."

It is impossible to combine tearlessness and strong flavor in the same variety of onion, Davis explained. A volatile sulphur compond gives onions their typical sharp flavor, but the same substance also causes tears to flow. If the sulphur was completely eliminated, there would be no flavor or tears. Hence the new onion is comparatively tearless.

Trout Fishing Good

Trout fishing continues good along the Merced River in Mariposa county, declares the National Automibile Club. Nearly all fish being taken are rainbow trout that run around 15 inches.

The California State Fair, in Sacramento, August 28 through September 7, will feature a gigantic flower show, with $25,000 being offered in premiums. The Hall of Flowers, a beautiful lattice-like structure moved from Treasure Island will house the exhibit. Glamorous flowers of every type will be in the displays, but we bet the prettiest of all will be the misses who help with the exhibits such as Miss Barbara Elam, pictured with a display of Gladiolus.

Naval Academy Football Team To Train On Coast

The U. S. Naval Academy Varsity football squad will conduct its pre-season training on the West Coast this fall, it was announced today by Rear Admiral James L. Halloway jr., USN, superintendent of the Naval academy. The Naval Air Station of Whidbey Island, located about sixty miles north of Seattle, has been approved as the site.

The West Coast was selected as site for training Navy footballers since they will open their 1947 season at Berkeley, California, on September 17 in the first of a two-game series with the University of California.

It is expected that Coach Tom Hamilton will have his charges report direct to Whidbey Island on August 31 upon completion of their thirty-day leave periods after return from summer cruise.

This will be the second such venture for the football team in regard to training camp. In keeping with the precedent established last year when the squad trained at Martha's Vineyard, a staff of instructors from various academic departments will accompany the team to conduct classes for midshipmen while they are in training.

The training period will last about three weeks after which the squad will fly to Berkeley on September 25 in preparation for opener two days later. Following the California game, midshipmen will fly to the Naval Academy in time to start the academic year which opens September 29.

That Blind Moment

That blind moment that occurs after a car with dazzling headlights has passed is easily explainable, declares the National Automobile Club. It is owing to the fact that the pupil of the eye, dilated by the darkness of night, has contracted enormously as a result of exposure to the bright ray of the other car's lights. The contraction, which occurs at 60 times the speed of dilation, is such as to result in temporary blindness.
